A COMPLETE GUIDE TO CLOCKSHARK AND MYOB INTEGRATION

Integrating MYOB with ClockShark makes running payroll even faster and more accurate, with less work.

MYOB is a powerful business accounting and management solution serving Australian and New Zealand businesses with over 50 different business management tools. From CRM and PoS to accounting and tax solutions, MYOB serves and grows with all sizes of businesses.

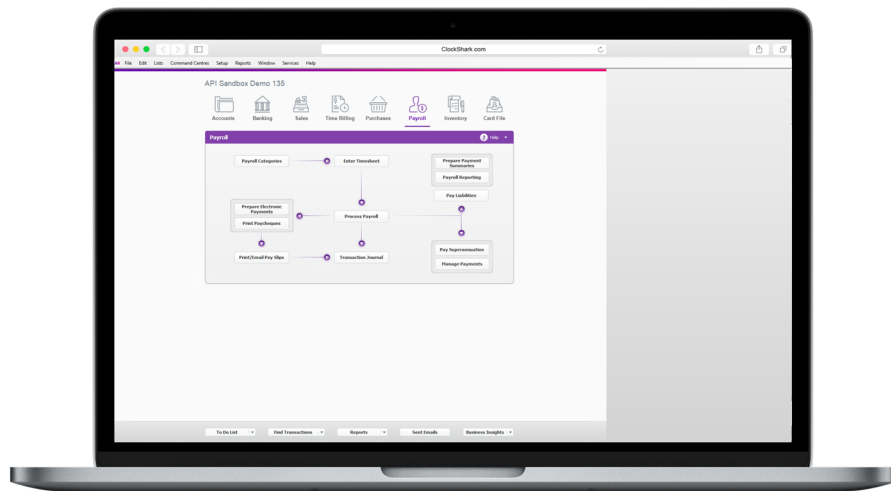

Integrating with ClockShark, MYOB becomes even more of a powerhouse, providing more in-depth data and insights so you can more accurately track your job costs, labor costs, and more, with stunning reporting options that keep you on top of your bottom line. It will also significantly improve the accuracy of your timesheet data and streamline your payroll process.

WHAT ARE THE BENEFITS OF INTEGRATING CLOCKSHARK AND MYOB?

When you use MYOB's software, you can much more easily stay on top of a large range of business tasks and processes. [Integrating MYOB with ClockShark](#) speeds up these processes even more, such as when you run payroll.

Employees track their time with the mobile app and, once you have everything set up, you simply export the time data to MYOB and everything is there to help you run payroll with a press of a button. No need for manual entry and you'll save even more time by having the data imported.
