

Worldwide Overview

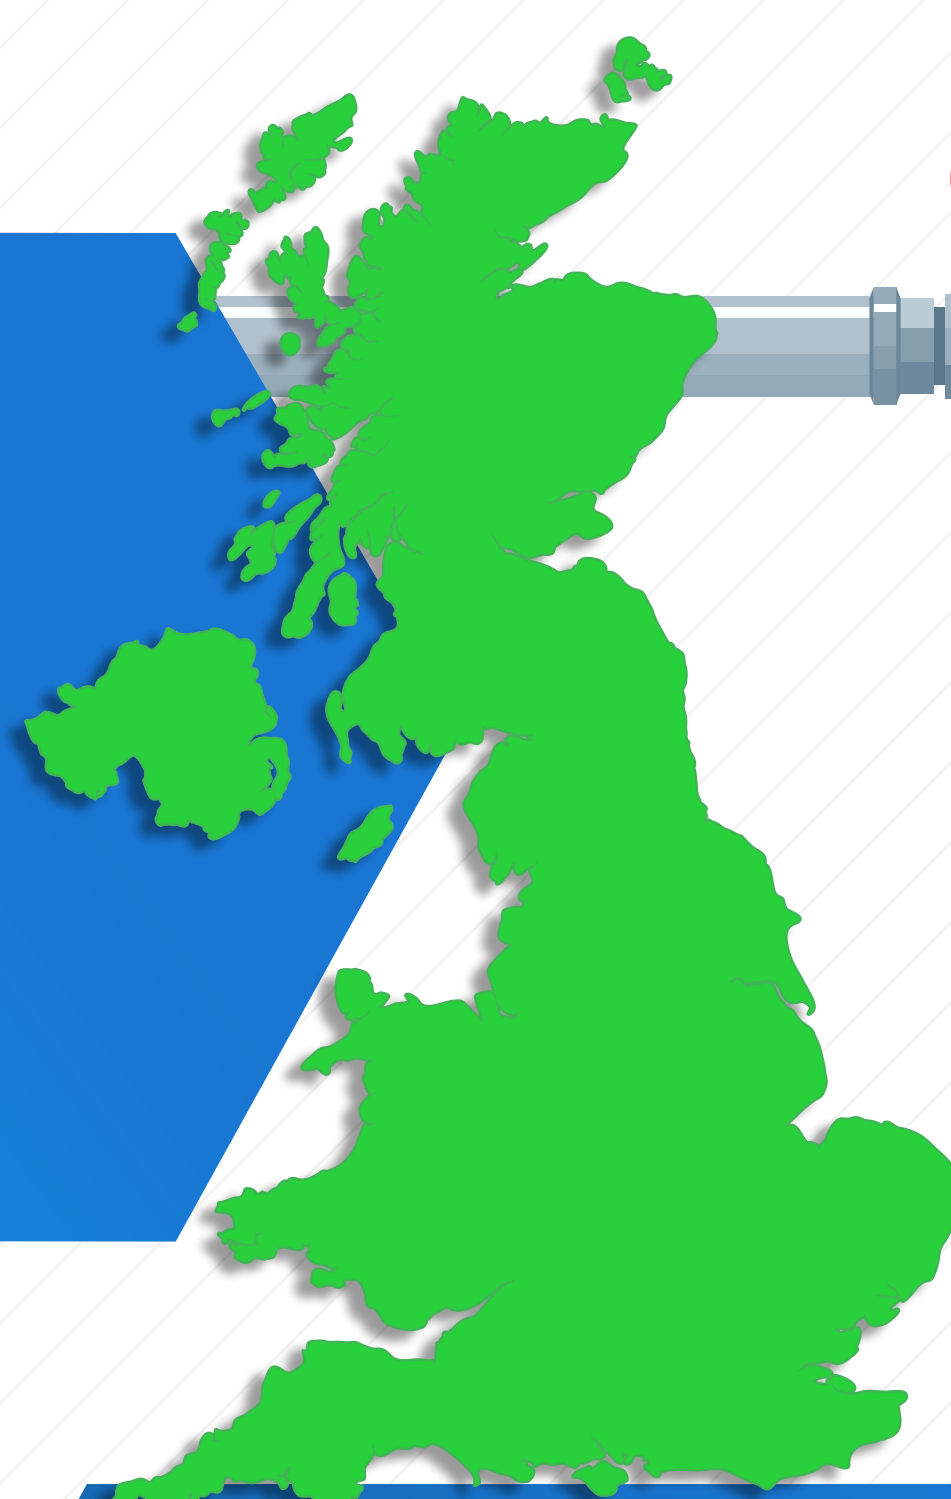

- Worldwide, up to **60%** of water is lost due to leaky pipes a year
- This leakage costs **\$14 billion** US annually
- A tap that drips just once per second = **8,000 L** of wasted water per year

Water usage in the UK

Water leakage in the UK and Australia:

UK = 3,113ML
OF WATER LEAKAGE
each day

In Australia,
10% of homes
leak and waste
341L PER DAY

Benefits of smart metering

MEASURE WATER CONSUMPTION:
Pulse monitoring

PERFORMANCE MEASUREMENT:
Pulse monitoring

RECAPTURE REVENUE:
Pulse monitoring, water leak detection

LOWER WATER COSTS:
Pulse monitoring, water leak detection

REDUCE EMERGENCY REPAIRS:
Water leak detection

DETECT AND MANAGE WATER:
Water leak detection
